# TRANSIT TUESDAY WEBINAR

## Transit Tuesday Webinar:

“Leading a Reinvention After Disruption”

Ten State Associations across the country are combining efforts and leveraging resources to bring additional training to their members. These webinars are for members of the following Associations: Arizona Transit Association, California Association for Coordinated Transportation, Colorado Association of Transit Agencies, Florida Public Transportation Association, Illinois Public Transportation Association, Pennsylvania Public Transportation Association, South West Transit Association, Tennessee Public Transportation Association, Virginia Transit Association and Washington State Transit Association.

The third in this series of webinars, “**Leading a Reinvention After Disruption**,” is scheduled for **Tuesday, July 14, 3:00 PM Eastern Time**. The recent pandemic disruption has challenged how we prioritize our goals and resulted in us working differently. This disruption caused a pivot in everyday work processes and procedures for businesses across the globe. As we embrace a “new normal”, it is a good time to take stock of what we learned and how this can make us better going forward.

This session will discuss how you can reinvent parts of your organization applying what we have learned through the pandemic disruption to improve business efficiencies and employee engagement.

The panelist for the webinar is: Mindy Price  
Chief PACE Setter, Direct Effect Solutions, Inc.
